

## *What is it about?*

A CCP (Certified Cost Professional) is an experienced practitioner with advanced knowledge and technical expertise to apply the broad principles and best practices of Total Cost Management (TCM) in the planning, execution and management of any organizational project or program

CCPs also demonstrate the ability to research and communicate aspects of TCM principles and practices to all levels of project or program stakeholders, both internally and externally.

The Certified Cost Professional course is specifically aimed at preparing delegates to pass the AACE CCP Certification exam

## *What's in it for me?*

On completion of the course delegates will be able to:

- ✓ Conduct a financial evaluation of projects
- ✓ Provide the complete scope of estimating, planning and cost control.
- ✓ Conduct controls and Earned Value Management on a project

Delegates who wish to take the CCP certification exam must have:

- 8 years of industry related experience, or
- 4 years industry related experience + 4-year industry related college degree
- 2,500 minimum word technical paper
- Adherence to AACE's Canons of Ethics

## *What can I expect?*

- Cost
- Cost Estimating
- Project Planning
- Scheduling
- Progress and Cost Control
- Project Management
- Economic Analysis
- Statistics, Probability and Risk Management
- Exam Preparation

## *How and when can I attend?*

This cost course is an intensive 5 day course. Delegates will work through typical exam questions.

The Certified Cost Professional (CCP) exam is:

- 5 hours maximum
- 120 simple multiple choice and compound scenario questions
- Closed Book – onscreen formula sheet(s) will be available for use, plus any style, battery operated calculator permitted (not provided by the testing centre)

The Certified Cost Professional (CCP) certificate is valid for 3 years and can be re-certified by either accumulating 12 CEUs or by taking and passing the exam again.

Delegates receive:

- A course manual
- CCP Technical Paper Handbook
- AACE's CCP Certification Study Guide
- AACE's Recommended Practices 11R-88 and 10S-90
- AACE's Skills & Knowledge of Cost Engineering, 6th Edition
- AACE's Total Cost Management Framework
- Certificate of Attendance

As cost engineers on both the Technician and the Professional levels are often required to perform the same functions and require the same skills. The Certified Cost Technician and Certified Cost Professional courses cover the same materials.

## *About PM Academy*

PM Academy South Africa was established in 2005 and expanded their service offerings to Botswana by establishing a local company in 2016. The strategic vision is to provide world class professional project management training, consulting and recruitment to the local and international markets. PM Academy has a wealth of experience and we have successfully completed projects, training and recruitment throughout Africa..

PM Academy is an AACE International Approved Education Provider (AEP).
